Languages

Native: German
Fluent: English (C2),
French (C2)

Research interests

- the interplay between linguistic core areas:
 - the Syntax-Phonology interface
 - the Syntax-Morphology interface
 - Linguistic Typology
 - Romance Languages
 - Modification (nominal, verbal, morphological)
 - Variation (syntactic, phonological)
-

Certificates

Certificate 'TCPS 2: CORE 2022' of the Canadian Panel on Research Ethics

PROFILE

I am a graduate student at the DFG funded Research Training Group 'Nominal Modification' at Goethe University Frankfurt am Main. My dissertation investigates several prosodic factors influencing the placement of a set of French attributive adjectives.

EDUCATION

Goethe-University, Frankfurt, Germany - PhD Linguistics, 2020-present

Research Training Group 'Nominal Modification'

Supervisor: Prof. Frank Kügler

Working title: The impact of prosodic factors in the positioning of a sub-class of French attributive adjectives

University of Toronto, Toronto, Canada - Research stay, 06/22-08/22

Under the supervision of Prof. Fatima Hamlaoui

Goethe-University, Frankfurt, Germany - MA Linguistics, 2016-2020

Main subjects: Syntax, Phonology, Constraint-based grammar

Thesis: Word order variation in French Adjectives- A Phonological Perspective

Supervisors: Prof. Caroline Féry and PD Dr. Gerrit Kentner

University of Strasbourg, Strasbourg, France - BA Linguistics, 2013-2016

Main subjects: Syntax, Phonetics, Morphology, History of Romance languages

PRESENTATIONS

Presentation at the colloquium of the Phonology department of Goethe-University - April 2022

Title: The role of phonological factors in the positioning of French attributive adjectives: experiment ideas

Presentation at the colloquium of the RTG 'Nominal Modification' at Goethe-University - January 2022

Title: The position of French adjectives: a closer look at semantic considerations

Presentation at the annual Retreat of the RTG 'Nominal Modification' at Goethe-University - June 2021

Title: The position of attributive adjectives in French: A pilot study on the influence of length

Presentation at the colloquium of the RTG ‚Nominal Modification‘ at Goethe-University - February 2021

Title: The role of phonological factors in word order variation phenomena in the nominal domain

WORK EXPERIENCE

Research assistant, Max-Planck-Institute for Empirical Aesthetics, Frankfurt - 04/19-09/20

Projects: ‚Prosarhythmus‘ and ‚Prosodische Syntax des Deutschen‘ (PD Dr. Gerrit Kentner and Isabelle Franz)

Data analysis, data inspection, data correction using inter alia Praat; as well as assistance on events held at MPI

Teaching assistant, Goethe University, BA Linguistics - 10/19-04/20

Syntax 1; Dr. Matthias Schulze-Bunte

Teaching assistant, Goethe-University, BA Teacher training - 10/17-09/20

Introduction to Linguistics; Prof. Katharina Hartmann, Dr. Johannes Mursell, PD Dr. Gerrit Kentner, Dr. Eric Fuß

Student assistant, Goethe University, Institute of English and American Studies - 10/18-03/19
